**AUSTIN, Texas. September 6, 2007** – Inc. ranked MPV No. 1053 on its first-ever Inc. 5,000 list of the fastest-growing private companies in the country. The Inc. 5,000, an extension of *Inc.* magazine's annual Inc. 500 list, catches many businesses that are too big to grow at the pace required to make the Inc. 500, as well as a host of smaller firms. Taken as a whole, these companies represent the backbone of the U.S. economy.

"The Inc. 5,000 provides the most comprehensive look ever at the most important part of the economy – the entrepreneurial part," said Inc. 5,000 Project Manager Jim Melloan. "The expansion of the list has allowed us to tell the stories of larger companies, older companies, and a wealth of companies in industries like Manufacturing and Construction that are underreported in the business media.

MPV provides physician groups with payor compliance tools and expert services to maximize the value of their payor contracts, verify reimbursement and improve revenue cycle efficiency. The company's combination of contract definition and modeling services and claims valuation technology helps physician groups to better understand their complex payor contract terms, identify and recover underpayments and negotiate better-performing contracts.

The 2007 Inc. 5,000, as revealed online at [www.inc.com](http://www.inc.com), reported median revenue of \$9.4 million and median three-year growth of 140 percent. Complete information on this year's Inc. 5,000, can be found at [www.inc.com/inc5000](http://www.inc.com/inc5000). The list features a profile for each company, almost all of them written as a result of *Inc.* interviews with management. In addition, the list is searchable according to numerous criteria, including industry, city, state, region, and year founded.
